1½" Large PK/MAG Nail - Up to 14 in.

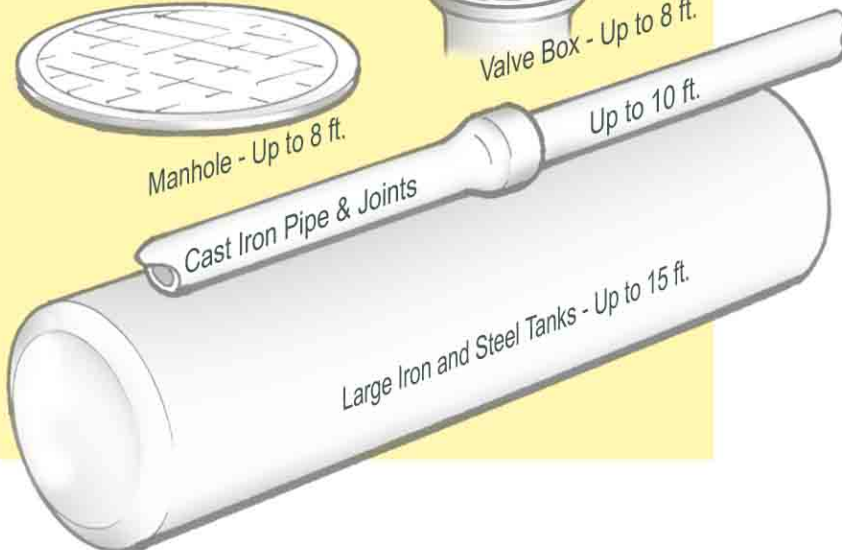

Marking Stake - Up to 7 ft.

Manhole - Up to 8 ft.

Valve Box - Up to 8 ft.

Cast Iron Pipe & Joints

Up to 10 ft.

Large Iron and Steel Tanks - Up to 15 ft.

Mag-Horn, the ideal tool for locating and pinpointing buried ferrous objects. The Mag-Horn is designed for easy use, even in difficult areas where shrubs, underbrush and weeds are in the way.

Outperforming metal detectors, Mag-Horn detects deeper and is more accurate, isolating only the steel & iron targets. No confusion from aluminum cans and other non-ferrous metals.

Backed up by the very best customer service and support, Pipehorn products simply can't be beat.
